

# SPS Mini DC UPS

**NT-UPS37W** | Keep Wi-Fi Power On  
10000mAh / 37Wh

# Multi-output

3\*DC + 1\*USB outputs support powering up 4+ devices

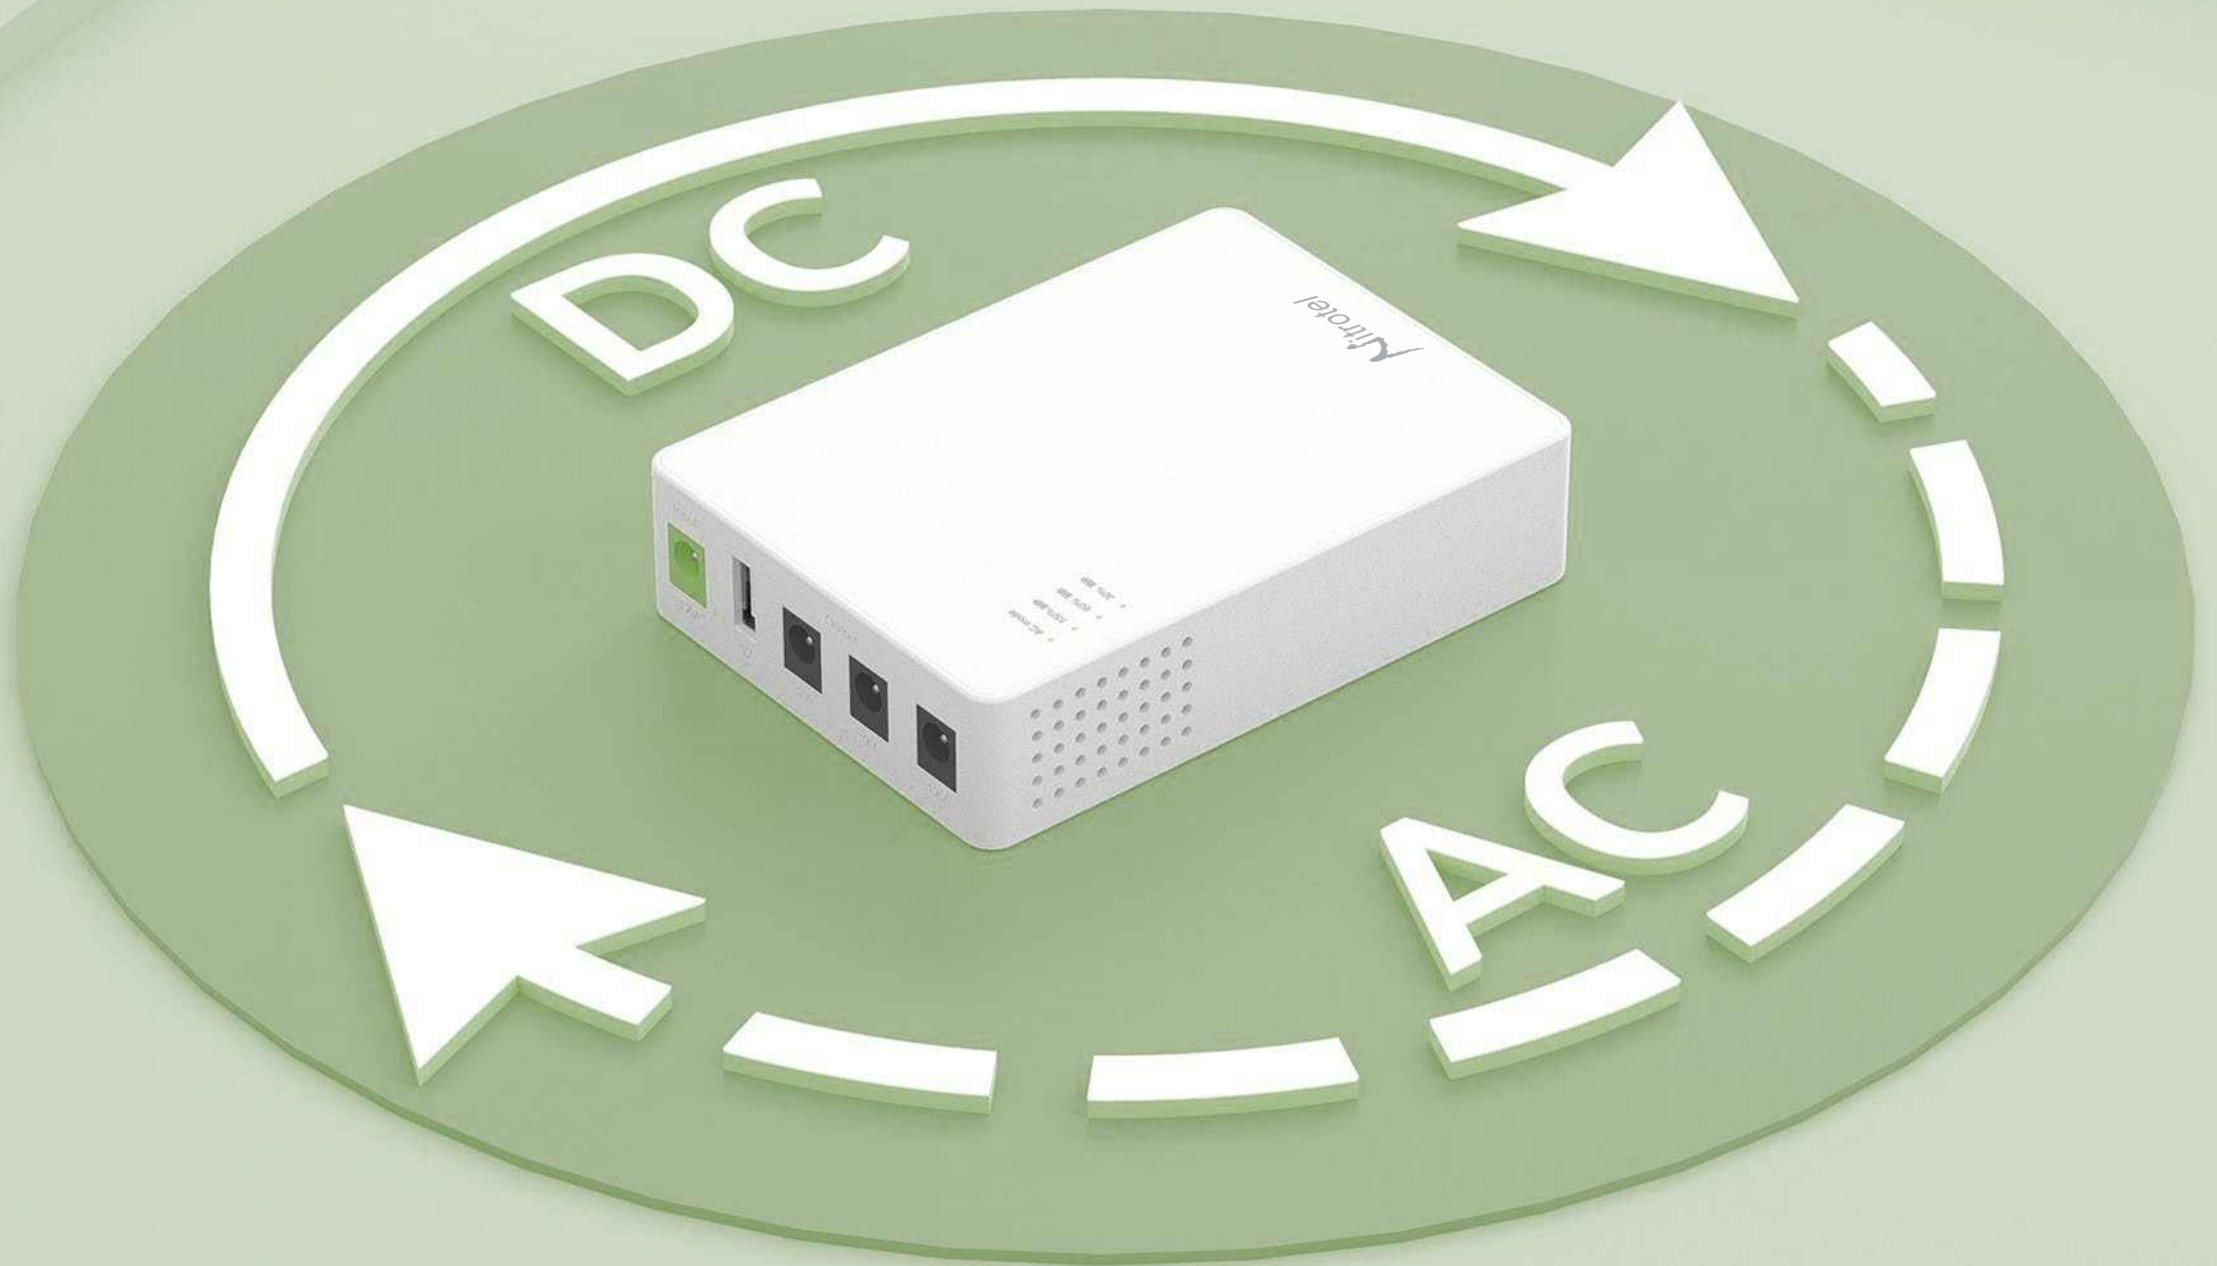

# High-capacity Battery

10000mAh high capacity battery supports your devices working longer hours

# AC to DC 0 ms Transfer

Keep your devices stay working when UPS shift from  
AC mode to battery mode

# Broad Compatibility

With 5V / 9V / 12V DC and USB 5V output  
NTP3 is compatible with most of the digital devices

# Place It Anywhere

With wall-mount slots on the back, you can mount your NT-UPS37W on a wall easily

Wall-mount slots

# Advanced Temperature Control

Air cooling system provides maximum heat dissipation  
ensuring long-term stability of the UPS

# Stay Safe From Fire

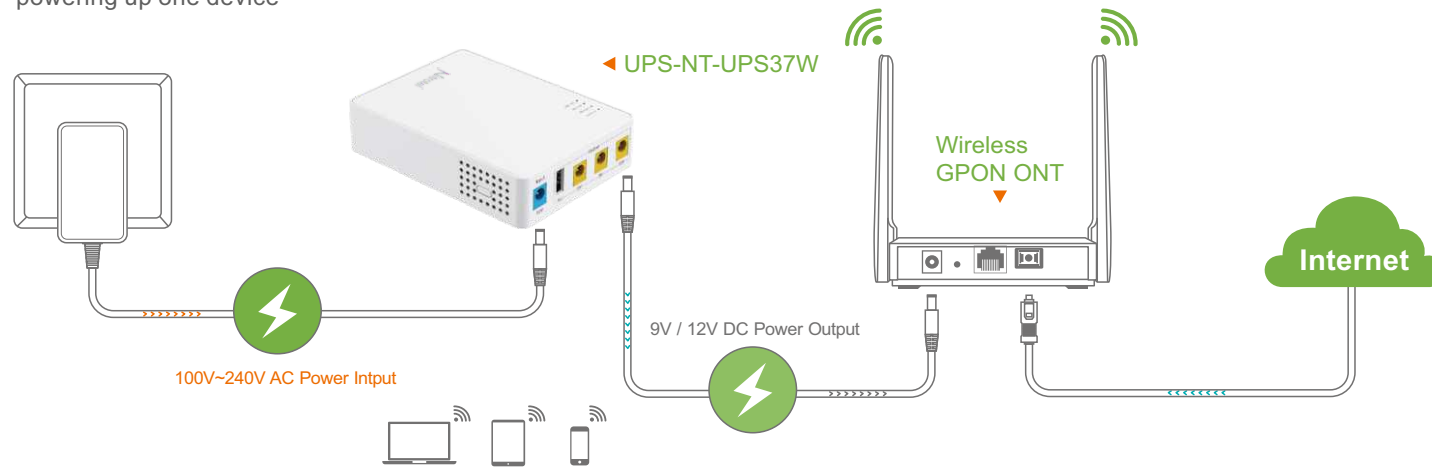

V-0 flame resistance product housing secures you and your property

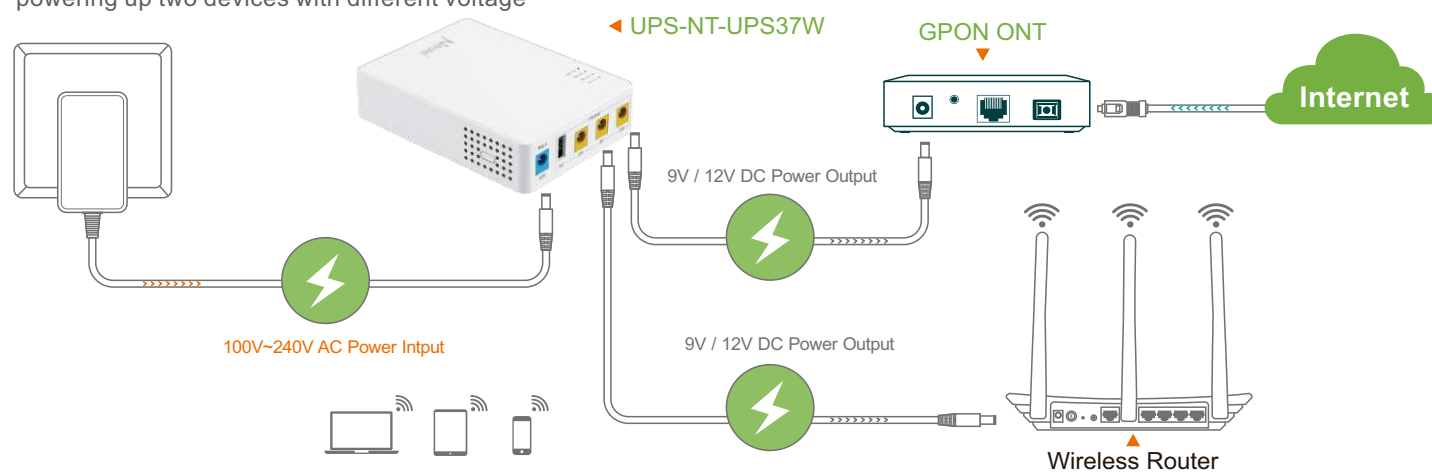

Typical topology 1

powering up one device

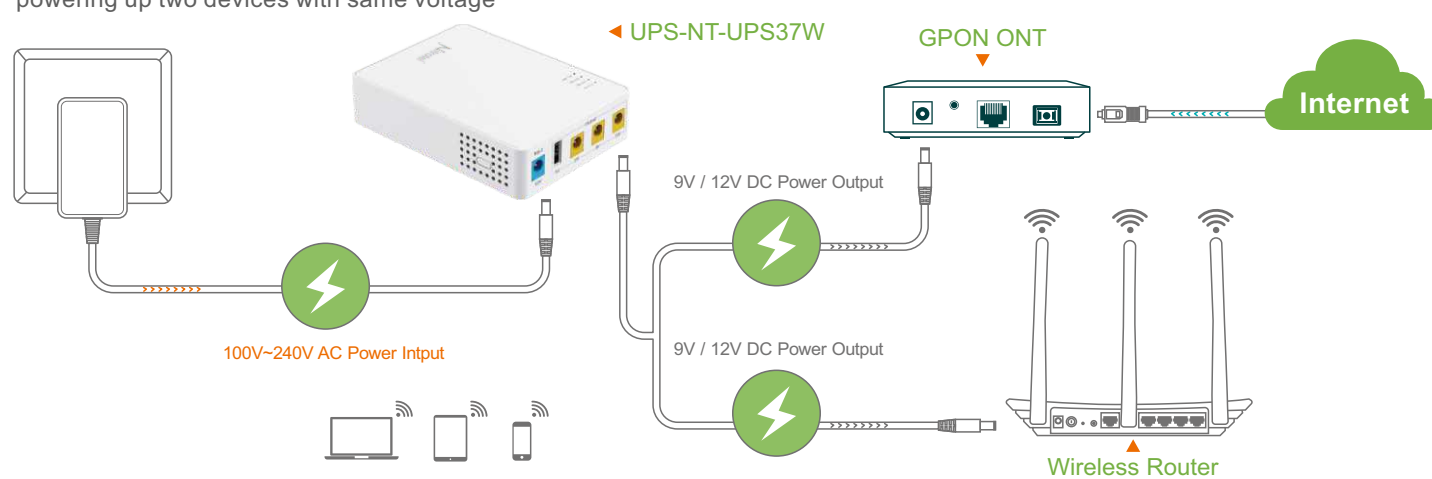

Typical topology 2

powering up two devices with different voltage

Typical topology 3

powering up two devices with same voltage

## Specification

|                  |  |
|------------------|--|
| Name             | SPS Mini DC UPS  |
| Model            | NT-UPS37W  |
| Battery Capacity | 10000mAh/3.7V 37Wh   |
| Input            | DC 12V / 2.0A  |
| Output           | DC 12V / 1.5A * 1 ports<br>DC 9V / 2.0A * 1 ports<br>DC 5V / 2.0A * 1 ports<br>USB 5V / 2.0A * 1 ports |
| Total Output     | 18W (Max.)   |
| Unit Dimension   | 115mm * 83mm * 27mm  |
| Net Weight       | 245g   |
