

## PRODUCT DATA SHEET

## Cage Nut Cup Washer and Screw

These Nitrotel rack mount cage nuts are easy to install, yet strong enough to support your most critical network gear. You'll find it easy to install and remove these with either a standard screwdriver or cage nut tool.

The phillips head 1032 rack screws are engineered to withstand installation and upgrades many times over without stripping out. Trust these Cable Rack mount screws to your most critical tasks.

This M6 16mm screw bundle includes 20 pieces of the rack cage nuts 1032, plus the plastic washer and the rack clips needed to secure your gear including any rack mount server. Using the plastic washer ensures you will not damage the powder coating on the rack rails.

M6 screws often come in black or zinc. This bundle includes the zinc 10 32 rack screws as requested by numerous customers over the years. Zinc is a clean material that leaves no greasy residue on the hands of the installer.

Server cage nuts and screws are an essential part of any server rack and server cabinet project.

Make sure to purchase an extra bag of this M6 screw and leave them on the rack mount shelf along with the rack screw clips for future upgrades to the cage.
